SENIOR SPOTLIGHT

Tanner Perlowski

Years old: 18

Years as a Junior: One year

School you attend: Riverside high school

Current grade: Senior, 12th Grade

Q: What are your hobbies?

A: I like to read books, travel- seeing new things, sailing, and camping.

Q: What are some of your other sports that you enjoy?

A: I also play soccer.

Q: What do you do in the winter?

A: I like to take walks, read even more books.

Q: How have the Juniors prepared you for your future outside of sailing and with sailing?

A: The juniors have prepared me to sail in high wind conditions, and be safe while sailing. What I have learned outside of sailing, is that consistency is key. Everyday we would put the sails on and off, each day we were getting faster, and more in the rhythm, this is important in life due to the fact that you must learn skills that you must be consistent with.

Q: Because you're a Senior in High School what colleges are you looking at and what field of work do you think you want to go into?

A: I am looking at UW Milwaukee, in which I already got accepted into, and also UW- Madison. I don't know exactly what I wish to study yet, but I want to take many classes, and let them guide me to what I really enjoy learning.

Q: Who inspired you to start sailing?

A: My father and grandfather.

Q: Where did you sail in Poland?

A: In the Masurian Lakes. My favorite spot was Sniardwy, which is the biggest lake in Poland.

Q: What's it like sailing in Lake Michigan versus Poland?

A: Lake Michigan is definitely more intense, Poland can also be intense. When sailing in Poland there were a lot of canals, and engine usage. Lake Michigan literally feels like an ocean, so that's why it is more enjoyable.

Q: Do you plan on coming back to the Juniors?

A: If I stay in Milwaukee, then most definitely.

Q: What are your plans beyond Juniors?

A: To keep in sailing 420's, they're extremely fun, No matter where I am going to be, whether it would be Milwaukee or Madison, I would still want a 420 to my usage, and stay consistent.

Q: What was the most fun thing you did/learned this summer?

A: The races were the most fun, it felt competitive, and put us into a lot of hard situations. It was challenging as well.
